

The Future of Decentralized Jackpots.

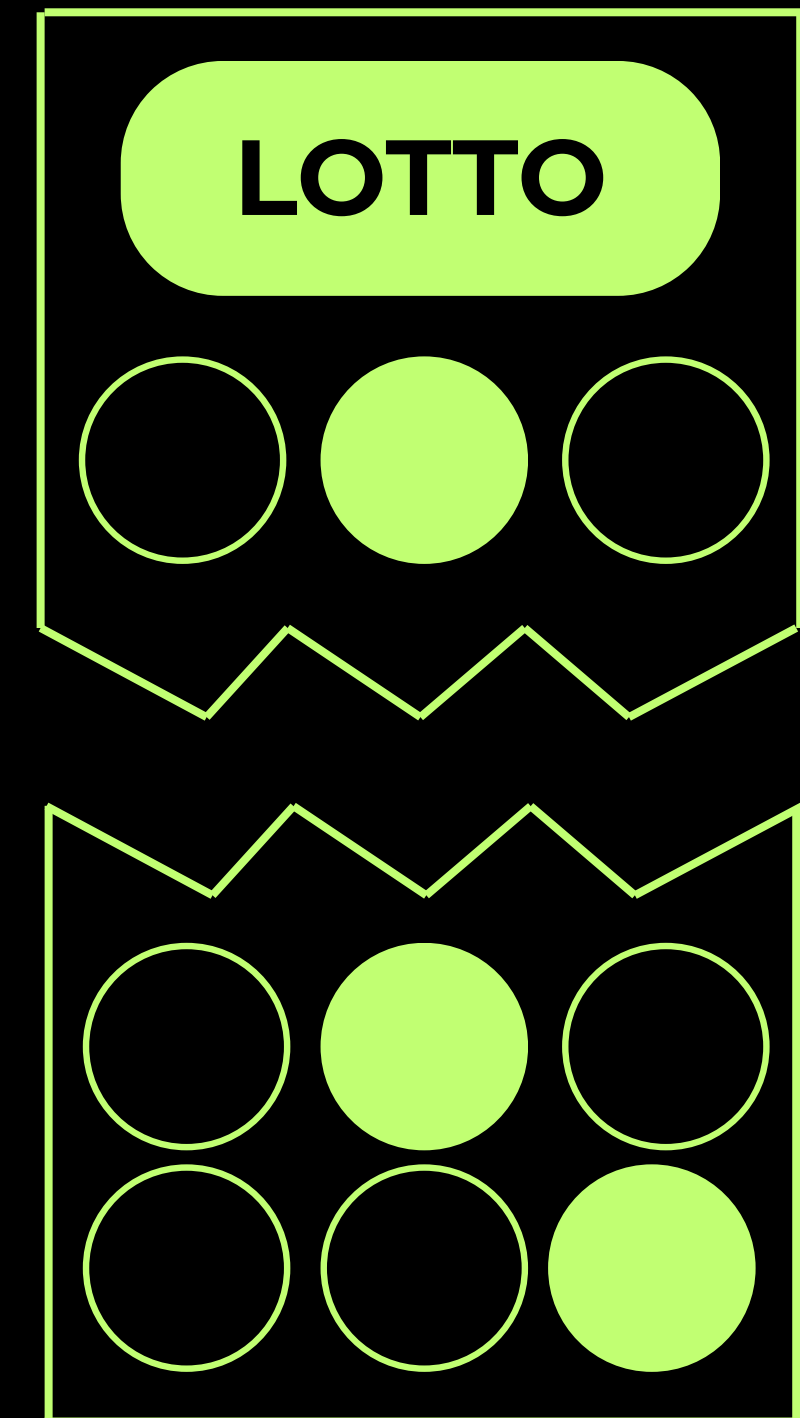

Built on CarrChain | Powered by Smart Contracts | Driven by Community

Traditional Lotteries Are Broken

Unfair - The house always wins

Slow - Payouts delayed and unclear

Opaque - No transparency, no trust

LUCKY Is Changing The Game

A fully decentralized jackpot
ecosystem powered by smart
contracts

Every player and referrer wins

Built for fairness, designed for growth.

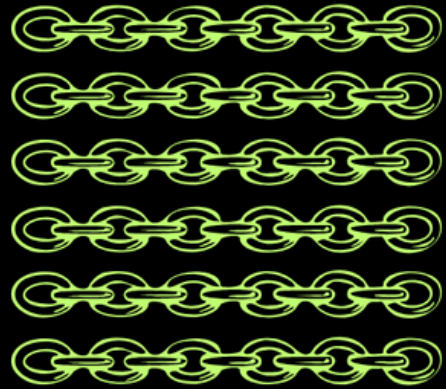

Why Blockchain?

Fairness. Transparency. Trust.

Provably Fair: Chainlink Verifiable Random Function

Automated Payouts: No middlemen, instant rewards

Immutable: Results can't be changed or faked

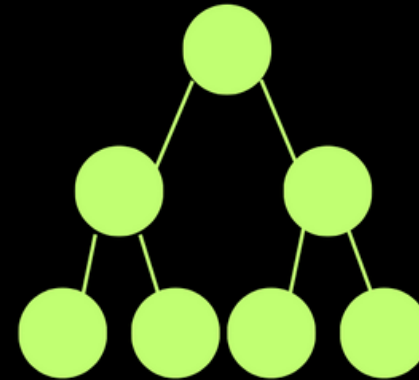

Smart Contract Based Draws

Fully automated and transparent mechanics

Jackpot Raffles

Participate in provably fair draws

Referral Schemes

Invite others and earn

Fair Rewards Model

Players Get More, Always

System	Prize Payout	Referral
Traditional	30%	No
LUCKY	70%	Yes

Growth Is a Self-Fulfilling Prophecy

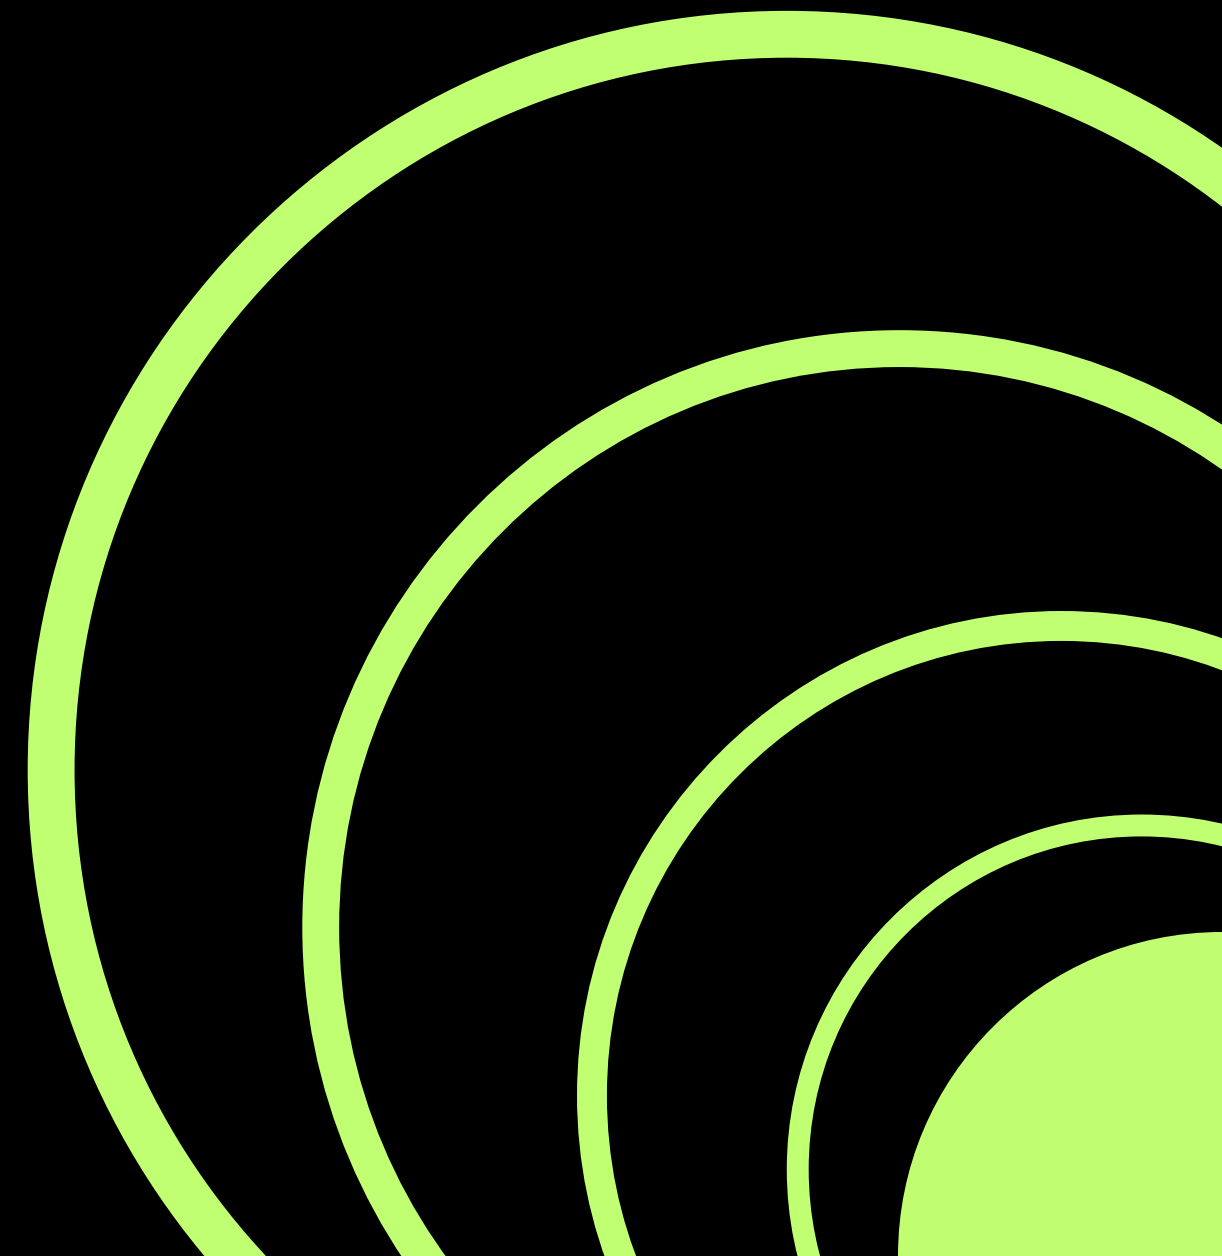

Every player, every referral, every jackpot fuels the next

LUCKY was built to grow organically

Referrals Create Expansion

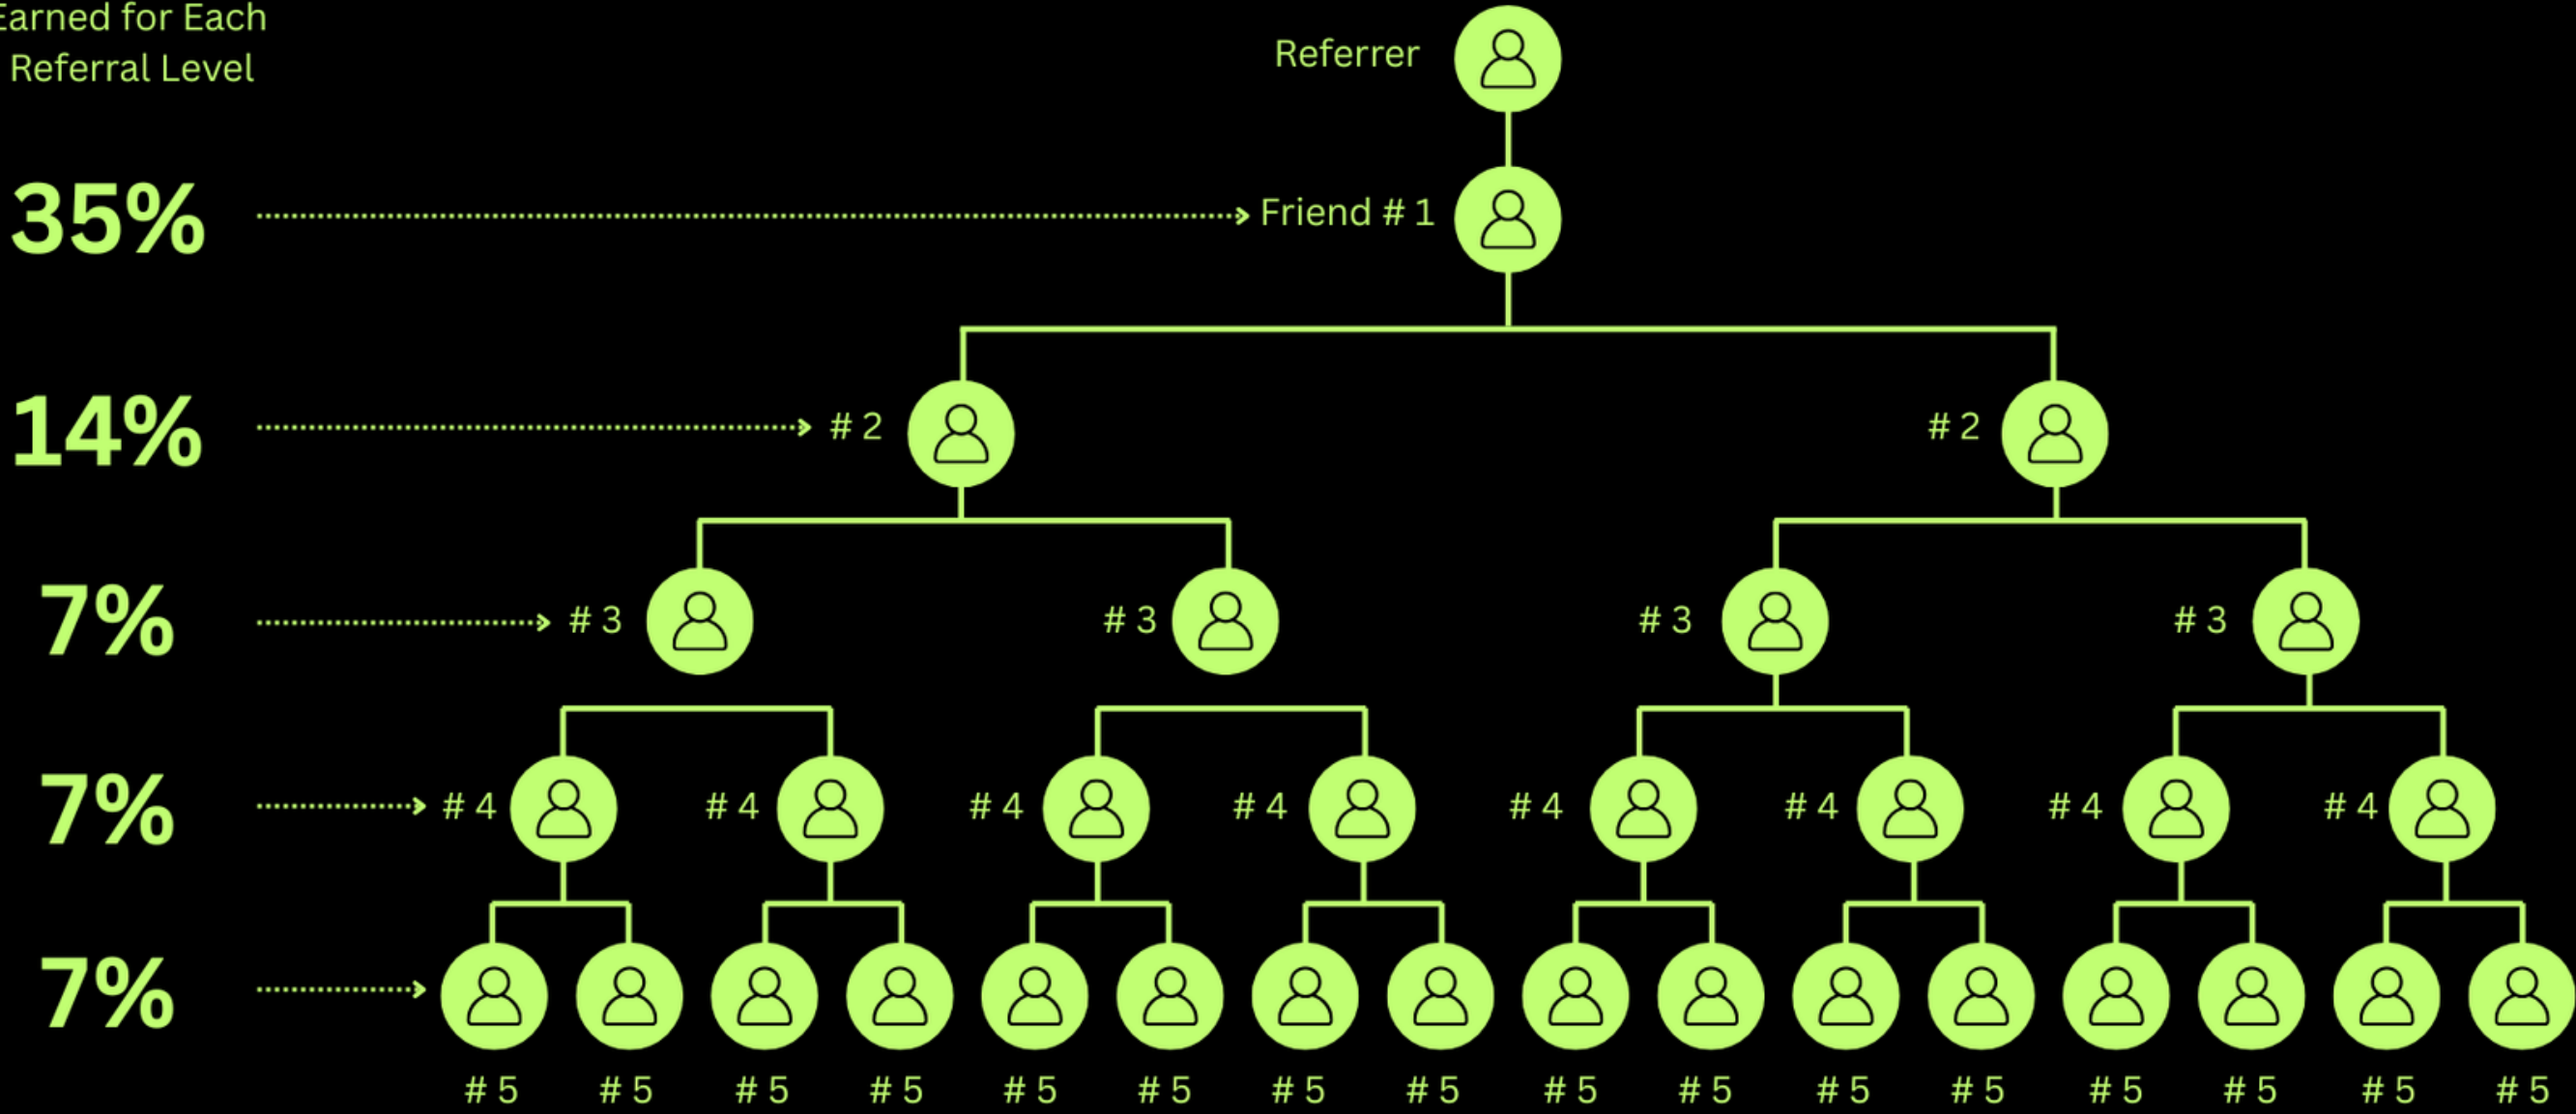

Players are incentivised to invite others, who then invite more, compounding reach, jackpots and rewards.

An Endless Loop With Exponential Momentum.

Earn Even If You Never Play

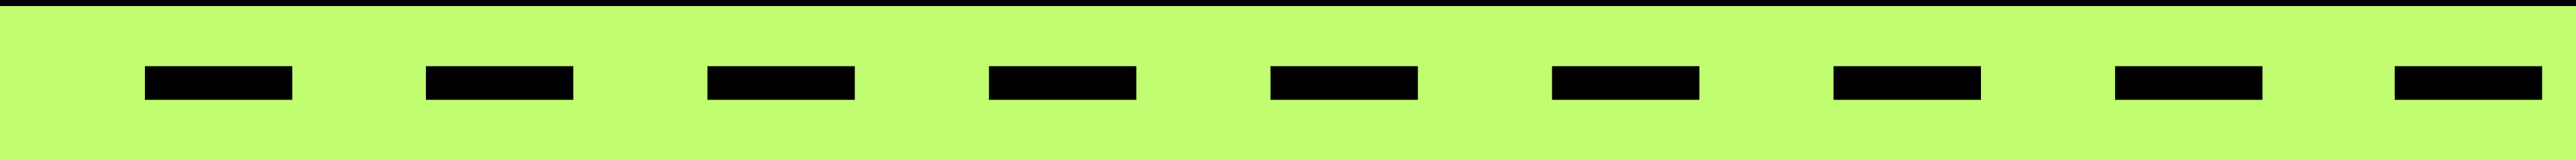

Percentage of Fees
Earned for Each
Referral Level

A 10% Admin Charge is placed per ticket sale. 70% of this is allocated to referral payouts and 30% to treasury.

Invite Once, Earn Forever
